

Partner Profile

The Brighton Collaboration Foundation (BCF) is an international non-profit organization. The BCF's activities focus on its role within the Network of the Brighton Collaboration (BC), of which it is a constitutional partner and which it serves as the organizer and focal point, the legal representative and the administrative body. The Brighton Collaboration is the world's largest network of vaccine safety professionals with the mission to building trust in the safety of vaccines through rigorous science.

Role in the ADVANCE Project

BCF was instrumental in establishing the consortium and conceptualizing ADVANCE. BCF will serve ADVANCE by supporting its vision and mission and by leveraging synergies with the partners of its global network. BCF will contribute the experience gained in large international vaccine safety initiatives, investigations, and capacity building effort.
